

OUR PLAN

City of Hope is redefining the future of medicine. Our scientific breakthroughs are resulting in more effective treatments for people with cancer and other life-threatening diseases. Our mission is to shorten the time from initial idea to new treatment — conducting innovative basic research, providing excellent clinical care and significantly strengthening our infrastructure. We are well-positioned for even greater achievements.

City of Hope's 2007–2013 strategic plan articulates our vision for the future, outlines our priorities — built around our core expertise in cancer — and provides us with clear metrics for evaluating our progress as we approach our 100th anniversary in 2013.

OUR VISION

Our aspiration is to become the leading cancer center in Southern California, and a top cancer center nationally as measured by:

Research

- Total grants per core member
- Total NCI grants
- Number of publications in top journals

Clinical

- Quality of care and patient safety measures
- Patient satisfaction
- Patient discharges

Reputation and Fundraising

- *U.S. News* reputation score
- *Forbes* fundraising efficiency rating
- Total annual funds raised
- Total endowment
- Total unrestricted funds raised

OUR PROGRAMS

Building on our current research and clinical strengths, our strategic plan focuses on investing in centers of excellence in the following research and clinical areas:

Research

- Immunotherapeutics/Immunology
- Stem Cell and Developmental Biology
- Developmental Therapeutics
- Cancer Biology
- Population Sciences
- Diabetes Research

Clinical

- Leukemia/Lymphoma
- Breast
- Genitourinary/Prostate
- Thoracic/Lung
- Gastrointestinal/Liver
- Pediatric
- Gynecologic
- Musculoskeletal
- Brain
- Diabetes

OUR CAMPUS

Expanding our research and clinical programs requires major capital investments. As a first step, our highest-priority strategic requirements include:

Facilities

- The Arnold and Mabel Beckman Center for Cancer Immunotherapeutics and Tumor Immunology
- Radiation Oncology Remodel
- The Michael Amini Transfusion Medicine Center
- Familial BMT Upgrade
- Population Sciences Building
- Machris Office Renovation
- Wing 1 Remodel
- Science Park

Technology

- Clinical Information System
- 3T MRI Machine

Our Aspiration

To save more lives by creating treatments more quickly and to find ways to prevent cancer altogether.

City of Hope Helford Clinical Research Hospital

Our Values

Our values of compassion, innovation and a sense of urgency are realized through a focus on translational research and a national scope.

Golter Gate

Our Future Begins Now

Guided by our strategic plan, City of Hope is achieving our mission.
